

THE CITY OF SAN FERNANDO

CITY COUNCIL

September 22, 2015

MAYOR
JOEL FAJARDO

Tom Wheeler, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

VICE MAYOR
SYLVIA BALLIN

COUNCILMEMBER
ANTONIO LOPEZ

SUBJECT: MB Docket No. 15-149

COUNCILMEMBER
ROBERT C. GONZALES

Dear Chairman Wheeler:

COUNCILMEMBER
JAIME SOTO

The City of San Fernando, California is a small working class community with a large Hispanic population. As City Manager, I am proud of our diversity and strive to maintain our welcoming and supportive atmosphere. I believe that cable broadband company New Charter would provide the highest quality services to San Fernando residents, and I look forward to working with the company.

New Charter would include Charter Communications, Time Warner Cable and Bright House Networks. The company would be committed to providing the latest broadband technologies to all customers. It would also strive to improve diversity and inclusion in its industry.

New Charter's services would include innovative products like a cloud-based guide and in-home and out-of-home WiFi. The company would work to improve connection speeds by investing in commercial and residential network fiber-optic upgrades. In addition, New Charter would work to provide its diverse customers with the programming they prefer. This would include the largest tier of Hispanic channels on the market, including El Rey, Fusion, Fuse, NBC Universo, and One World Sports.

I believe access and choice are fundamental to consumer needs. New Charter would provide access to the latest technologies and offer a variety of programming choice to all of its customers. Please join me and support the merger.

Sincerely,

Brian Saeki
City Manager
City of San Fernando, California
